Executive Summary

NVC Fund Bank operates as a supranational sovereign institution under the African Union Treaty framework, providing comprehensive banking services through a strategically designed global SWIFT network. Our 15 sovereign SWIFT codes ensure full compliance with ISO 20022 and ISO 9362:2022 international standards while supporting advanced blockchain integration through the NVCT stablecoin ecosystem. As a treaty-backed sovereign institution, NVC Fund Bank maintains operational authority across multiple jurisdictions while adhering to the highest international banking standards. Our global infrastructure facilitates seamless international transactions, correspondent banking relationships, and cross-border financial services for institutional clients worldwide. This documentation serves as the definitive reference for our SWIFT messaging capabilities, regulatory compliance framework, and operational infrastructure across four continents.
