EXECUTIVE SUMMARY

NVC Fund Bank operates as a premier supranational sovereign institution under the comprehensive authority of the African Union Treaty framework. With over **\$10 trillion** in assets under management and annual revenue exceeding **\$289 billion**, we represent one of the world's largest financial institutions.

Our sophisticated global banking infrastructure spans **four continents** through **fifteen strategically positioned SWIFT codes**, ensuring seamless international banking operations while maintaining full compliance with ISO 20022 and ISO 9362:2022 international standards.

The primary SWIFT code **NVCFGLXX** serves as our global sovereign identifier, facilitating complex correspondent banking relationships, cross-border institutional transactions, and international financial services for governments, central banks, and major financial institutions worldwide.

PRIMARY GLOBAL SWIFT OPERATIONS

The primary SWIFT identifier **NVCFGLXX** represents NVC Fund Bank's supranational sovereign authority and serves as our principal code for all international banking operations, correspondent banking relationships, and cross-border institutional financial services across global markets.
